

Demand Generation Plan

Project StudioOne

The Project StudioOne demand generation plan targets mid-tier operators in Germany, Russia, and Turkey, using LinkedIn ads, industry events, and PR to generate 50+ qualified leads and 10+ media mentions within 6 months, with a total budget of €40–75K.

1. Marketing Objectives

Generate 50+ qualified B2B leads (casino operators) within the first 3 months post-launch.

Secure 10+ media mentions in tier-1 iGaming publications within 6 months.

Achieve 1,000+ unique visitors to the StudioOne website in the first 3 months.

Establish brand awareness among mid-tier operators in Germany, Russia, and Turkey within 6 months.

2. Current Market Trends

The live casino market is growing at 15–20% annually, driven by demand for authentic, real-time gaming experiences.

Operators are shifting from RNG (computer-generated) games to live dealer content to increase player retention.

Localization (native-speaking presenters) is becoming a key differentiator, especially in regulated markets like Germany.

Mid-tier operators are underserved by large providers (Evolution, Playtech) and are seeking turnkey, brandable solutions that are both premium and affordable.

3. Marketing Theme

"Your Brand. Your Studio. Your Players."

This theme highlights our core differentiators:

- Your Brand – full branding flexibility (logo, colors, UI)
- Your Studio – warm, visually stunning design
- Your Players – native-speaking presenters that keep players coming back

4. Primary Target Market Segment

Segment	Priority	Description
Mid-tier online casino operators	1	Operators with existing traffic but no live dealer offering; need a turnkey solution with native presenters (German, Russian, Turkish) and branding flexibility
Land-based casinos expanding online	2	Physical casinos with brand and license – need technology
White-label casino platforms	3	Reseller channel to smaller brands

5. Promotion Vehicles & Collateral

Type	Description
Press releases	Launch announcement to iGaming media (2 weeks before launch)
LinkedIn ads	Targeted campaigns to casino decision-makers (job titles: operations manager, product director, C-level)
Industry events	SiGMA, ICE London – speaking slots, exhibition space, private meetings
Case study	Pilot operator results (published end of Phase 1)
Whitepaper	"Localization in Live Dealer Blackjack" (Year 1)
Sales collateral	Studio demo video, product fact sheets, ROI calculators, comparison vs. competitors

6. Campaign Schedule / Timeline

Phase	Timeline	Activities
Pre-launch (awareness)	2 months before launch	LinkedIn campaign begins; media list built; teaser campaign
Launch week	Launch day + 1 week	Press releases live; direct outreach to 100+ operators; social media announcement
Post-launch (scaling)	Months 1–3	Case study published; follow-up campaigns; retargeting ads; industry events
Sustained	Months 4–6	Whitepaper published; second wave of outreach; KPI review

7. Industry Influencers & Key Events
